COVID-19 Preparedness and Response Plan

In order to respond to the current state of emergency related to the novel coronavirus ("COVID-19") and to comply with relevant state and local orders related to COVID-19, the Battle Creek Area Transportation Study (BCATS) has prepared the following COVID-19 Preparedness and Response Plan ("Plan"). This Plan may be updated as this situation evolves or as state or local orders related to COVID-19 are issued or amended.

Essential Workers Necessary to Perform Critical Infrastructure Functions or Conduct Minimum Basic Operations

Executive Order 2020-42 and subsequent Executive Order 2020-59 prohibits businesses or operations to operate a business or conduct operations that requires workers to leave their homes except to the extent those workers are necessary to sustain or protect life (i.e., critical infrastructure workers) or to conduct minimum basic operations. Appendix A contains a list of critical infrastructure workers as described by the U.S. Cybersecurity and Infrastructure Security Agency in its March 19, 2020 guidance as well as additional categories of such workers identified by Governor Whitmer in Executive Order 2020-42 and 2020-59.

Under Executive Order 2020-42 and 2020-59, workers who are necessary to conduct minimum basic operations are "those workers whose in-person presence is strictly necessary to allow the business or operation to maintain the value of inventory and equipment, care for animals, ensure security, process transactions (including payroll and employee benefits), or facilitate the ability of other workers to work remotely."

Only "critical infrastructure workers" or those required to conduct minimum basic operations may be permitted to perform in-person activities so long as any in-person work is performed consistently with the social distancing and mitigation measures required under any relevant executive order or public health order. Workers designated as critical infrastructure workers or those required to conduct minimum basic operations will be informed of such designations in writing, if so required.

Protective Safety Measures

Sick Leave
Employees are permitted to take paid leave consistent with the Families First Coronavirus Response Act and BCATS' Personnel Policies. Any onsite employee who appears to have a respiratory illness may be separated from other employees and sent home.

Remote Work
All employees who are not essential to operations, and whose job duties reasonably allow to them telework, will work remotely, until called back to the BCATS office facilities.

Employee Screening Before Entering the Workplace
A sample Employee Entry Screening Questionnaire is attached as Appendix B. A screening questionnaire should be completed by all employees before being permitted to enter the workplace and should comply with any required screening process required by the state or local jurisdiction in which the
entity is located. Any individual taking employee temperatures will be required to wear appropriate personal protective equipment. If an employee fails the screening process, he or she will be prevented from entering the premises until allowed to return to work under the relevant executive orders or public health orders, which requirements are explained in detail in the Return to Work Plan, attached as Appendix C.

**Personal Protective Equipment**

BCATS shall provide and make available to all Critical Infrastructure Workers (CIW) and any worker performing in-person work, personal protective equipment (PPE) such as gloves, goggles, face shields, and face masks, as appropriate, for the activity being performed by the CIW or in-person worker. Any in-person worker able to medically tolerate a face covering, must wear a covering over his or her nose and mouth when in any enclosed public space within the City of Springfield City Hall building.

**Enhanced Social Distancing**

Employees will be directed to perform their work in such a way so as to reasonably avoid coming within six feet of other individuals. Where possible, employees may be relocated or provided additional resources in order to avoid shared use of offices, desks, telephones, and tools/equipment. Employees should remain in their assigned work areas as much as possible. Employees whose job duties regularly require them to be within six feet of members of the public will be provided with appropriate personal protective equipment or physical barriers commensurate with their level of risk of exposure to COVID-19 — currently, BCATS has no such employees. Employees will be provided with appropriate personal protective equipment as required and physical barriers may be installed for employees commensurate with their level of risk of exposure to COVID-19 and, as appropriate.

**Enhanced Hygiene**

Employees are instructed to wash their hands frequently, to cover their coughs and sneezes with tissue, and to avoid touching their faces. Employees will be provided with access to places to frequently wash hands or to access hand sanitizer. Employees will also be provided with access to tissues and to places to properly dispose of them. Signs regarding proper hand washing methods will be posted in all restrooms. Hand shaking is also prohibited to ensure good hand hygiene.

**Enhanced Cleaning and Disinfecting**

Increased cleaning and disinfecting of surfaces, equipment, and other elements of the work environment will be performed regularly by all employees using products containing EPA-approved disinfectants. Employees will be provided with access to disposable disinfectant wipes so that any commonly used surfaces can be wiped down before each use. In the event that an employee that has been in the workplace in the past 14 days tests positive for COVID-19, significant measures will be taken to recount what the employee came into contact with so all surfaces can be disinfected properly to ensure the disease will not spread to others. Employees will not be permitted to perform work in those affected areas until disinfectant has been applied.

**Tools and Equipment**

BCATS limits the sharing of tools and equipment among in-person employees. Should any sharing of tools be required, employees must disinfect and clean each tool or piece of equipment following their use of same and before any other employee uses the tool or piece of equipment. BCATS will provide employees with disinfectant wipes and other disinfecting products for this purpose.
Visitors
No visitors should be allowed in the workplace unless they are deemed essential to address an issue related to critical infrastructure functions. All visitors entering the offices shall be screened prior to entering the premises. A screening questionnaire should be utilized to decide if the visitor can enter the building. If a visitor presents with symptoms of COVID-19 or answers yes to any of the screening questions they are not allow them into the building. Such visitors will be provided a handout regarding what to do if you might have COVID-19. The City of Springfield is monitoring visitors to the building, as differentiated from the entry to the BCATS office area.

BCATS requires that any member of the public able to medically tolerate a face covering must wear a covering over his or her nose and mouth, such as a homemade mask, scarf, bandana or handkerchief, while in any enclosed public space.

Employees with Suspected or Confirmed COVID-19 Cases

Suspected Cases

An employee will be considered to have a Suspected Case of COVID-19 if:

- They are experiencing any of the following COVID-19 symptoms:
  - Fever;
  - Shortness of breath; and/or
  - Continuous cough.

- They are experiencing at least two of the following symptoms:
  - Fever
  - Chills
  - Repeated shaking with chills
  - Muscle pain
  - Headache
  - Sore throat and/or
  - New loss of taste or smell

- They have been exposed to a COVID-19 positive person, meaning:
  - An immediate family member has tested positive for or exhibited symptoms of COVID-19;
  - In the last 14 days, the employee came in close contact with someone who has tested positive for COVID-19.

If an employee believes that he or she qualifies as a Suspected Case (as described above), he or she must:

- Immediately notify supervisor;
- Self-quarantine for 14 days; and
- Seek immediate medical care or advice.

If an employee qualifies as a Suspected Case, then BCATS will:
• Notify all employees who may have come into close contact (being within approximately six feet for a prolonged period of time without PPE) with the employee in the past 14 days (while not disclosing the identity of the employee to ensure the individual’s privacy); and
• Ensure that the employee’s work area is thoroughly cleaned.

Confirmed Cases

An employee will be considered a Confirmed Case of COVID-19 if the employee has been performing in-person operations in the past 14 days and that person tested positive for COVID-19.

If an employee believes that he or she qualifies as a Confirmed Case (as described above), he or she must:

• Immediately notify supervisor of his or her diagnosis; and
• Remain out of the workplace until they are cleared to return to work.

If an employee qualifies as a Confirmed Case, then BCATS will:

• Notify all employees who may have come into close contact with the employee (being within approximately six feet for a prolonged period of time without PPE) in the past 14 days (while not disclosing the identity of the employee to ensure the individual’s privacy);
• Ensure that the entire workplace, or affected parts thereof (depending on employee’s presence in the workplace), is thoroughly cleaned and disinfected;
• If necessary, close the work area or workplace, until all necessary cleaning and disinfecting is completed; and
• Communicate with employees about the presence of a confirmed case, the cleaning/disinfecting plans, and when the workplace will reopen.

Business Continuity Plans

The COVID-19 Workplace Coordinator will: (1) work to assure that essential functions of BCATS can be performed if key employees for those functions are absent; (2) develop an emergency communication plan to communicate important messages to employees and the public.
**APPENDIX A**

**CRITICAL INFRASTRUCTURE WORKERS**

Consistent with the March 19, 2020 CISA guidance document, critical infrastructure workers include some workers in each of the following sectors

a. Health care and public health.

b. Law enforcement, public safety, and first responders.

c. Food and agriculture.

d. Energy.

e. Water and wastewater.

f. Transportation and logistics.

g. Public works.

h. Communications and information technology, including news media.

i. Other community-based government operations and essential functions.

j. Critical manufacturing.

k. Hazardous materials.

l. Financial services.

m. Chemical supply chains and safety.

n. Defense industrial base.

For purposes of Executive Order 2020-42 and Executive Order 2020-59, critical infrastructure workers also include¹:

a. Child care workers (including workers at disaster relief child care centers), but only to the extent necessary to serve the children or dependents of workers required to perform in-person work as

---

¹ Under Executive Order 2020-42 and 2020-59, necessary government activities may continue, which includes activities performed by critical infrastructure workers as well as the following government activities including, but not limited to, public transit, trash pick-up and disposal (including recycling and composting), activities necessary to manage and oversee elections, operations necessary to enable transactions that support the work of a business’s or operation’s critical infrastructure workers, and the maintenance of safe and sanitary public parks so as to allow for outdoor activity permitted under Executive Order 2020-42. In-person government activities are subject to the same social distancing and mitigation measures proscribed under the executive order for businesses.
permitted under this order. This category includes individuals (whether licensed or not) who have
arranged to care for the children or dependents of such workers.

b. Workers at suppliers, distribution centers, or service providers, as described below.

1. Any suppliers, distribution centers, or service providers whose continued operation is
necessary to enable, support, or facilitate another business’s or operation’s critical infrastructure
work may designate their workers as critical infrastructure workers, provided that only those
workers whose in-person presence is necessary to enable, support, or facilitate such work may be
so designated.

2. Any suppliers, distribution centers, or service providers whose continued operation is
necessary to enable, support, or facilitate the necessary work of suppliers, distribution centers, or
service providers described in subprovision (1) of this subsection may designate their workers as
critical infrastructure workers, provided that only those workers whose in-person presence is
necessary to enable, support, or facilitate such work may be so designated.

3. Consistent with the scope of work permitted under subprovision (2) of this subsection, any
suppliers, distribution centers, or service providers further down the supply chain whose
continued operation is necessary to enable, support, or facilitate the necessary work of other
suppliers, distribution centers, or service providers may likewise designate their workers as
critical infrastructure workers, provided that only those workers whose in-person presence is
necessary to enable, support, or facilitate such work may be so designated.

4. Suppliers, distribution centers, and service providers that abuse their designation authority
under this subsection shall be subject to sanctions to the fullest extent of the law.

c. Workers in the insurance industry, but only to the extent that their work cannot be done by
telephone or remotely.

d. Workers and volunteers for businesses or operations (including both religious and secular
nonprofit organizations) that provide food, shelter, and other necessities of life for economically
disadvantaged or otherwise needy individuals, individuals who need assistance as a result of this
emergency, and people with disabilities.

e. Workers who perform critical labor union functions, including those who administer health and
welfare funds and those who monitor the well-being and safety of union members who are critical
infrastructure workers, provided that any administration or monitoring should be done by
telephone or remotely where possible.

f. Workers at retail stores who sell groceries, medical supplies, and products necessary to maintain
the safety, sanitation, and basic operation of residences, including convenience stores, pet supply
stores, auto supplies and repair stores, hardware and home maintenance stores, and home
appliance retailers.

g. Workers at laundromats, coin laundries, and dry cleaners.

h. Workers at hotels and motels, provided that the hotels or motels do not offer additional in-house
amenities such as gyms, pools, spas, dining, entertainment facilities, meeting rooms, or like
facilities.
i. Workers at motor vehicle dealerships who are necessary to facilitate remote and electronic sales or leases, or to deliver motor vehicles to customers, provided that showrooms remain closed to in-person traffic.
APPENDIX B

EMPLOYEE ENTRY SCREENING QUESTIONNAIRE

In order to access the workplace, I affirm that in the past 24 hours, I have not experienced:

- An atypical cough
- Atypical shortness of breath

Or at least two of the following:

- Fever of 100 degrees F or 37.8 degrees C, or above
- Chills/Repeated Shaking
- Muscle Pain
- Sore Throat
- Headache
- New or Loss of Taste or Smell

If you answer “yes” to any of the symptoms listed above, you will not be permitted access to the premises. Please self-isolate at home and contact your primary care physician for direction. You must also inform your supervisor.

- You should isolate at home for a minimum of 7 days since symptoms first appear.
- You must also have 3 days without fever and improvement in respiratory symptoms.

In the past 14 days have you:

- Had close contact (within six (6) feet for a prolonged period of time) with someone with a diagnosis of COVID-19?

- Traveled internationally? If you answer “yes” to either of these questions, you are not permitted access to the premises. Self-quarantine at home for 14 days.

- Traveled domestically? If you answer “yes” you must notify supervisor of your whereabouts immediately.

If no to all of the above, please check and sign below and proceed to enter the workplace premises:

Week of:

Initial below in the box

APPENDIX C
EMPLOYEE RETURN TO WORK PLAN

Consistent with Executive Order 2020-36, employees who fail entrance screening will only be permitted to return to work under the following circumstances.

Employees who test positive for COVID-19 or display one or more of the principal symptoms of COVID-19 (fever, atypical cough, or atypical shortness of breath) will not be permitted to return to work until either:
1. Both 3 days have passed since their symptoms have resolved and 7 days have passed since their symptoms first appeared or since they were swabbed for the test that yielded the positive result; or
2. They receive a negative COVID-19 test.

Employees* who have been in “close contact” (being within approximately six feet for a prolonged period of time) with an individual who tests positive for COVID-19 or who displays one or more of the principal symptoms of COVID-19 will not be permitted to return to work until either:
1. 14 days have passed since the last close contact with the sick or symptomatic individual; or
2. The symptomatic individual receives a negative COVID-19 test.

*The “close contact” rule does not apply to the following classes of workers: health care professionals; workers at a health care facility (including hospitals, surgical centers, health maintenance organizations, nursing homes, hospice, and veteran’s facilities); first responders (e.g., police officers, fire fighters, paramedics); child protective service employees; workers at child caring institutions, as defined in MCL 722.111; and workers at correctional facilities.
APPENDIX D
CORONAVIRUS DISEASE (COVID-19) VISITOR HEALTH SCREENING

Office Visiting: _____________________________________________________________

Visitors Name: ___________________________ Appointment Date: __________ Time In: ________

In the past 24 hours, have you experienced any of the following symptoms:

_______ An atypical cough
_______ Atypical shortness of breath

Or at least two of the following:

_______ Fever of 100 degrees F or 37.8 degrees C, or above
_______ Chills/Repeated Shaking
_______ Muscle Pain
_______ Sore Throat
_______ Headache
_______ New or Loss of Taste or Smell

If visitor answered “yes” to any of the symptoms listed above, visitor is not permitted access to the premises. Visitor is handed CDC Handout: Sick with COVID-19 Fact Sheet.

In the past 14 days have you:

_______ Had close contact (within six (6) feet for a prolonged period of time) with someone with a diagnosis of COVID-19?
_______ Traveled internationally or domestically?

If visitor answered “yes” to either of these questions, visitor is not permitted access to the premises.

_______ Visitor is required to wear a face covering while in any public spaces within the premises.

Security Officer or Employee:

Contacted Office and informed them the visitor was not allowed into the building.

Date: ___________ Time: _______ Spoke to: ___________________________
APPENDIX E
SIGNS FOR BUILDINGS

Spectrum Health employer resources provided these signs: one that can be posted at building entrances and one illustrating COVID-19 symptoms and prevention measures, which can be posted inside work places. BCATS will utilize the sign for posting at entrances at the entrance to its offices within the City of Springfield City Hall. The City of Springfield has posted the same signs at the building entrances of its building.

https://www.spectrumhealth.org/covid19/employer-resources
Only Enter This Building If You:
• Are a healthy visitor
• Have an appointment
• Are a company employee

All others:
If you have COVID-19 symptoms, please contact a health care provider.

If you have severe or life-threatening symptoms, please call 911 and proceed to the nearest emergency department.
Keeping Michigan Informed
Novel Coronavirus 2019 (COVID-19)

Symptoms

FEVER
COUGH
BREATHING DIFFICULTY

Prevention—Start With Washing Your Hands

WET HANDS
LATHER
SCRUB: 20 SECONDS
RINSE
DRY HANDS

- Washing your hands often with soap and water for 20 seconds is one of the easiest and most effective ways to prevent the spread of germs.
- Avoid contact with people who are sick.
- Cover your cough and sneeze with tissue.
- Avoid touching eyes, nose and mouth.
- Clean and disinfect surfaces and objects frequently.
- Stay home when you are sick, except to get medical care.

Seeking Care
Call your doctor if you experience symptoms, or our COVID-19 hotline at 616.391.2380 to schedule a free virtual screening.*
If your symptoms are life-threatening, call 911.

*Free screening available for all individuals in the state of Michigan.

CERTIFICATION

Battle Creek Area Transportation Study
COVID-19 PREPAREDNESS AND RESPONSE PLAN

Certification by Responsible Public Official

This is to certify that I have reviewed the Battle Creek Area Transportation Study COVID-19 Preparedness and Response Plan attached hereto and to the best of my knowledge and belief:

1.) It complies with Michigan Executive Order #2020-42 dated Thursday, April 9, 2020 and Michigan Executive Order 2020-59 dated April 24, 2020

2.) The plan is consistent with the guidance from U. S. Department of Labor, Occupational Health and Safety Administration publication OSHA 3990-03-2020, Guidance on Preparing Workplaces for COVID-19.

3.) The plan is available on the Battle Creek Area Transportation Study website [https://www.bcatsmpo.org] and at the Battle Creek Area Transportation Study office within the City of Springfield City Hall building, where in-person operations take place during the COVID-19 emergency.

I declare that the foregoing is true and correct.
