

Battle Creek Area Transportation Study (BCATS)

TECHNICAL COMMITTEE

Wednesday, July 8, 2020

Given continued COVID-19 virus issues and limited staff availability with suitable Internet access, action scheduled to be taken at a July 8th Technical Committee meeting is being planned for electronic voting by e-mail responses to recommend approval of two items by Policy Committee. As Technical Committee is an advisory group for BCATS, this method of review & action is acceptable. Final, official BCATS action on each item will be taken by Policy Committee on 7/15/20 via a Zoom meeting, including the requisite opportunities for public comment. A public notice to solicit comment on the TIP amendment (Item A) is being published Sunday 7/5/20 in the Battle Creek Enquirer.

Technical Committee members are asked to review the two "New Business" items listed below, and submit questions or comments, if any, by e-mail to bcats@bcatsmpo.org for discussion by e-mail exchange. On or before the scheduled meeting date of July 8th, voting members will conclude their review by sending an e-mail stating their vote to recommend, or not, Policy Committee approval of each item. Materials for the two items will be posted on the BCATS website for the members.
